

## **AMENDMENTS TO THE SPECIFICATION**

Please replace the third Paragraph on Page 14 with the following paragraph rewritten in amendment format:

In the present embodiment, drive control circuit 10 is composed of an inductor L, which is mainly the inductor component of the [~~FCC~~] FFC and is connected in series with the output of drive waveform generation circuit 30 as a waveform conversion unit, and analog switch TG, which drives piezoelectric vibrator 20 according to a drive waveform input through inductor L.
